Programming Languages: HTML, CSS, JavaScript, Bootstrap, Angular JS, React JS, SQL, Mongo DB, AWS(Basic), JAVA(Basic), Python

PROJECTS

Cryptoshield FIR System Using Blockchain Technology
Developed a decentralized blockchain solution using JAVA and smart contracts to manage electronic First Information Reports (e-FIR) in India, enhancing data transparency, security, and integrity through encrypted blocks, SHA-256, Peer-to-Peer(P2P) and Proof of Stake (PoS) protocol. Automated FIR registration and access processes, ensuring secure and tamper-proof storage.

Travel Guide Website
A travel website serves as a digital platform offering valuable resources for individuals planning trips. Whether providing travel reviews, details on trip fares, or a blend of both, these platforms cater to the needs of a vast audience.

WORK EXPERIENCE

Oasis Infobyte   March – April 2023
